End of the “3G” scheme at the workplace

Bill no 7971, which is expected to be voted on and published today, provides for **the end of the “3G” scheme in the workplace.**

Companies that continued to apply the “3G” scheme, which has been made optional since 11 February 2022, **must compulsorily terminate it** (no more control of certificates for access to the workplace, no more verification of identity, **destruction of the “vaccinated / reinstated” list and declarations of consent, etc.**).

The **“3G” scheme in company canteens should also be removed.**

It should be noted that compliance with the sanitary rules applicable until now (wearing a mask, respecting social distancing, etc.) would no longer be mandatory.

These measures are expected to be applicable as of 11 March 2022.
